Artist Statement

«EXPLORING WITH HIDDEN FINDS OF THE EARTH WORKING WITH LIGHT - TIME - REFLECTIONS»

«VIEWING OF LAYERS - MAKE THE UNSEEN VISIBLE»

«Borders and surfaces have a common ground. Surfaces are ends and entrances at the same time.

For me, discovering depths means penetrating through the surfaces.

It is becoming increasingly difficult to listen to our guiding principles, to develop them and to continue to cultivate them.

Connection to nature, intuition and empathy for the natural are lost. As a result, I'm trying to dig deeper through the layers to understand them.»

«TIME»

The Earth meets the Moon in a bar: «Storms pass», she whispers in his ear.

She kisses him, walks away and circles.

The Moon watches her go and thinks - what remains?

Love, he hums.
